Summary

- Experienced Flutter Developer with 3+ years building scalable mobile apps for real estate, e-commerce, and education. Expert in clean architecture, state management (Bloc, Provider), Firebase, and Google Maps integration. Proven track record delivering high-quality apps across iOS and Android.

Experience

- | | |
|--|------------------------|
| – PLAENT LAND L.L.C | Full-Time, Remote, UAE |
| - Built real estate apps with Flutter, integrating Google Maps, Firebase, and RESTful APIs.
- Designed responsive UI from Figma with localization support for multilingual users.
- Applied clean architecture and Bloc for scalable, maintainable code. | Part-Time, Remote, KSA |
| – Sonbla | Part-Time, Remote, KSA |
| - Enhanced user/delivery apps and developed vendor app using Flutter with MVVM architecture.
- Integrated Branch.io for deep linking and Sentry for error tracking, improving app reliability. | Full-Time, Remote, CA |
| – Metachain Technologies Inc. | Full-Time, Remote, CA |
| - Developed 5+ mobile apps using Flutter, collaborating with backend, ML, and DevOps teams.
- Managed tasks with ClickUp and Notion, ensuring timely feature delivery. | |

Education

- **Faculty of Computers and Artificial Intelligence, Helwan University**
 - Augmented Reality with Flutter and Unity 3D (A Grade)

Projects

PLAENT LAND L.L.C Apps [Play Store](#) | [App Store](#)

- Real estate platform, integrating Google Maps, Augmented Reality, Firebase, and RESTful APIs.
- Implemented clean architecture and Bloc for scalability, with full localization support.
- Tech:** Flutter, Bloc, Firebase, Google Maps, Clean Architecture, AR, Git Hooks, Unit Testing, Flavors

Sonbla Apps [Play Store](#) | [App Store](#)

- E-commerce platform with user, delivery, and vendor apps using MVVM and Provider.
- Integrated Branch.io for deep linking and Sentry for error tracking.
- Tech:** Flutter, Provider, MVVM, Branch.io, Sentry, Streams, Refactoring

Skills

- Mobile:** Flutter, Dart, State Management (Bloc/Cubit, Provider, GetX), Firebase (Firestore, Functions, Crashlytics, Analytics, Remote Config, App Distribution), Google Maps/Places, Push Notifications, Payment Integration, Localization, Deep Link, Networking, Local Storage, Flavors
- Practices:** Clean Architecture, MVVM, Testing (Unit, Widget), Agile, CI/CD
- Tools:** Git, GitHub, VS Code, Android Studio, Xcode, Figma, Jira, Slack

Achievements

- Published Package:** Created [performance_monitor](#) package on pub.dev
- Stack Overflow:** 400+ reputation, 10+ answers, 3 accepted as best answers
- Open Source:** Active contributor to Flutter/Dart communities on GitHub and Reddit
